

## **Quality, Environmental, Health and Safety Policy**

### **Scope Statement:**

This QHSE Management system applies to all UK activities and operations and includes Manufacture and Supply of fired, unfired precision refractory shapes, Impregnation and absorbent materials for the removal of impurities from gases and liquids.

QHSE continual improvement is critical to the success of the company, our goals are to:-

- Comply with the requirements of ISO9001, ISO14001 and OHSAS18001
- Address all internal and external issues within the Organisation, and to ensure all requirements of interested parties are met
- To satisfy the quality requirements and understand the journey of the product to our customers
- To comply with legislations, regulations, standards and other requirements
- Prevention of injury and ill health to employees and the public
- Prevention of pollution and environmental impact to the surrounding area
- Continual improvement through setting objectives and assessing performance through the Factory Master system
- Reviewing the management system for robustness and relevance
- Ensure personnel are competent for the tasks they perform
- A commitment to satisfy applicable requirements
